Canal and Mining Company at 721 per cent. The Philadelphia Inquirer states that some of the Bank have decided to discount to some extent, moderately how ever and with an eye to the earliest possible resumption of specie payments. Money continued very tight, and good paper was selling at 1½ a 1½ per cent, per month. The Bank Bill had passed the Senate, and been sent to the House for concurrence in the amendments. The following are

1st. An immediate resumption of specie payments, of all Institutions, except where the depositors have made contracts to take other funds than specie. 2d. Those banks which took part of the loan of 1841, to

have thirty days to accept of the law, and are to be exone rated from loaning any more money to the State-and those which have loaned 5 per cent on their capital, are to be exenerated from paying tax on dividends, until such tax amounts to an indemnity for sums loaned. 8d. The North American argues that the failure of the United State Bank was much accelerated by the purchase and payment of the Government stock in the Bank. The traders and dealers of Baltimore have entered into

an agreement to receive Railroad Orders at such a rate of discount as shall be fixed weekly by a Committee chosen for that purpose. The present rate is twenty per cent. The New-Orleans Bee says that money matters are getileg worse and worse. One of the largest Cotton houses had failed. Their liabilities were variously estimated a

from 5 to \$700,000. The State Bank at Mobile was believed to be indirectly engaged in buying Cotton for the purpose of placing funds in England to meet the interest on the State Bonds and the short bonds falling due. Sight exchange on New-York was 12 a 13 per cent.

LAWYERS' DIARY February 26. 17 Notices of trial Superior Court. No Calendar for

CITY INTELLIGENCE.

Reported for The New-York Tribune. COURT OF SESSIONS.

Before the Recorder, Judges Lynch and Noah and Aldermen Balis and Pollock. Trial of Jonathan Amory and Henry H Leeds for False Pretence.

[Concluded.] FRIDAY, February 25. The arguments of counsel is this case having closed on Thursday, at the opening of the Court this morning His Honor the Recorder charged the Jury on the facts and law as applicable to the present case. We have been furnished by our faithful Reporter with a full and well pre pared digest of the Recorder's Charge; but for lack ospace we are obliged greatly to condense it. The Ref

corder clearly stated all the facts of the case as established in evidence, and said that to sustain the indictment charging fraudulent intent on the part of the accused the Statute required the following things: 1. That the representation be false; 2. That it be made with fraudulent intent; 3. That it constitute the moving if not the sole inducement for granting the credit asked; 4. That it be of such a character as to impose upon a person of ordinary intellect; and, 5. That it relate to a present fact and not to a promise for the future performance of an act.

Every falsehood, he said, was not such a false pretence as is contemplated by the statute; he insisted that all crime has its foundation in wicked intent, which should not be inferred from light or trivial circumstances. The Recorder then examined closely and most candidly, the whole evidence as bearing upon each of these points. He alluded to the heavy loss complainants had sustained, to the evidences of culpable negligence on the part of delendants, and to their previous high character for integrity. Should the jury return a verdict of guilty, the Court, he said

would not hesitate to do its duty; and he earnestly exhorted them to give such a verdict as should merit public approbation, meet the demands of the Law, and stamp this tribunal as a temple of Truth and Justice.

The jury then retired, and after an absence of four hours. returned, stating that they could not agree. It is understood that eleven were for acquittal and one for conviction. The jury were then remanded to their chamber, and locked up for the night.

CIVIL COURTS.

FRIDAY, February 25.

In the Court of Common Pleas an action was brought by Alex. Dearbors, to recover damages from John Fry, for fraud, in leasing to him a house and store at the corner of Broome and Norfolk-streets, when he had no authority to do so. Fry married a daughter of the late Mr. Clark, Captain of the Eldridge-street watch. She was nearly or quite an imbecile, weighed about 300 pounds, and was unable to dress or undress herself, but she held this property in her own right. Fry induced her, after they were married, to sign a keed conveying it to a man named Luff, who, the following day, re-conveyed to Fry individually. He then gave a lease to plaintiff for one year certain, with the privilege of keeping it two years more should he choose to do so. Mrs. Fry left her husband when she found out what and Hudson improved 1, Farmers' Loan 1, North American he had caused her to do, and went with her sister to Natchez, where she died about a year ago. An action for fraud to recover back the property was brought by her relations, and on her death the sister claimed as heir at law. The plaintiff was ejected from the premises, part of his stock of groceries put into the street, and great injury caused to him. The present action was therefore instituted. The case was concluded, but Judge Inglis deferred giving his

charge until Monday morning. In the Superior Court, John J. Hart brought an action against Jas. C. Baldwin, for injury done to his property (No. 51 Pike-street) by an excavation for an under cellar to house adjoining, belonging to defendant, causing the front wall of the building to crack. It was shown that proper precaution had benn taken and the Jury found for defendant

POLICE OFFICE. FRIDAY, February 25. CHARGE OF BURGLARY .- On Thursday night the powder nagazine of Mr. Charles J. Howell at Bushwick, Long-Island, was burglariously entered and a quantity of powder stolen therefrom. To-day two men named William Gilmartin and Bryan Quinn went to the store of Mr. Seymour in Chatham street and offered a quantity of powder for sale, such as had been stolen, and were arrested by officers Colvin Ralyea and F. F. Smith, taken to the Police Office and lodged in prison on a charge of having committed the above ourglary.

STEALING SOVEREIGNS .- On the 15th December last a fe nale named Antacsa, wife of Garret Dunston, who had been boarding with Ellen Keeler, No. 8 Front street, being about to leave for a few weeks, delivered to the latter a frock n which was tied up 17 sovereigns worth \$32.20, requesting Mrs. Keeler to keep them for her until her return. When she came back, a short time since, she requested her frock and money of Mrs. Keeler, and the frock was restored but the sovereigns retained. As she could obtain no satisfaction for them of Mrs. Keeler, she proceeded to the Police Office and preferred her complaint, and to-day officer Bowver arrested Mrs. K. and she was committed to prison to answer. Thirteen of the sovereigns also were recovered.

T Professor Buchholtz's Compound Syrup of Capilaria,—This invaluable medicine is presented to the American public as the best known remedy for Consumption, Liver Complaint, Chronic Coughs, Hoarseness, and all Pulmonary Affections. It was invented by Dr. Buchholtz, (of Germany,) Professor of Medicine and Chemistry in the University of Erfurth in Prussia, and member of istry in the University of Eriarth in Prussia, and member of most of the scientific societies on the Continent of Europe, and used by him in his private practice in that country with great success. When this medicine was introduced in Prussia, the King (as an expression of his confidence in its merits) gave the inventor a large reward, and the exclusive right to prepare and sell it in his kingdom. The public can have the fullest confidence in this being the genusie medicine, as the receipt was obtained from a nephew of the inventor, (a German physician of the same name,) who received it directly from him. This medicine is purely veretable, and is German physician. This medicine is purely vegetable, and is entirely free from morphine or opium, which forms the ba-sis of nearly all the cough remedies now in use. It operates slowly upon the system, and when first taken it sometimes produces sickness at the stornach, and increases the disposi-tion to cough, but this is attended with less pain and easy expectoration. It removes the ulcerated and unhealthy parts of the luags, entirely eradicates the disease, and restores the whole system to perfect health. The fact is admitted by most physicians, that persons may live in the enjoyment of good health with but a portion of the lungs remaining, which proves conclusively that diseased lungs can be cured. It is the design of this remedy to produce this result and if taken account. be cured. It is the design of this remedy to produce this result, and if taken according to the directions, and in time for its operation, such will be the effect. We do not pretend that this will cure in the last stages of the disease, as it requires from one to three months to remove the disease and

restore the system to health.

There are thousands of persons who are taught from their youth that they inherit consumption, and that an early grave must inevitably be their portion: now to such we would say with the fullest confidence of the truth, that with the timely use of this remedy they may be restored to the enjoyment of perfect health. This medicine is entitled to the confidence of the intelligent portion of the community, from the fact of its favorable notice and successful operation in the fact of its favorable notice and successful operation. the fact of its favorable notice and successful operation in Europe, and the high standing of the inventor; we are willing to let it rest upon its own merits. It has already been tested in this city, and the persons cured can be referred to by inquiring at the office of the Proprietors. We prefer the mode of satisfying those who wish to know its effects, rather well as the contraction. than to publish certificates. We beg the public not to con-terns this as one of the medical humbugs of the day, until its

efficacy has been tested. As an assurance of our confidence in the article, we warrant the first bottle to afford relief, or the purchase money will be retunded Sold only by R. E. DIBBLE & CO., 309 Broadway, New

COLTON, 197 Charte IT Protect the Dead .- At a numerous meeting of elatives and friends of the dead buried in the Bethel Baptist Church-Yard in Chrystie-street, called in consequence

of a proposal of the Hudson Fire Insurance Company to remove said dead, said Company holding said Yard by a mortgage wrongfully given and received from men having only a disputed claim as Trusteesot said Church property, the following resolutions were considered and unanimously adopted. A large number of signatures to a remonstrance was obtained, and the meeting adjourned to meet next Monday night, 28th inst, at 187 Bowery. Resolved, That this meeting view the proposition to re-

nove the remains of our friends and relatives interred in ground attached to the Church corner of Delancey and Obrystie-streets, as an attempt of the Hudson Insurance Co. to infringe upon our rights as citizens, and justly entitles them to the cognomen of a 'chartered monopoly much as we have an undoubted title to said ground, having nurchased it for the above purpose without any provision hatever being made relative to a disinterment.

Resolved, That the conduct of the Trustees of the above Church, in mortgaging said property, in our opinion not their own, (having been purchased by us,) justly entitles

them to the censure of this meeting.

Resolved, That we are utterly opposed to the removal of the said remains under any consideration whatever, and that we will unite in using our utmost endeavors to prevent the same. Resolved, That in the opinion of this meeting, the Common Council have no power to compel us to relinquish our claims upon said property,

CHALLENGE TO THE MEDICAL FACULTY.—The doctrines which I advocate in Medical Philosophy, are now before the public in my treatise just published, entitled "Key to Medical Science." The views therein advocated are of an original character, and lirectly at variance with all the general received opinions of the day; and if true, must ere long prostrate all the pre-sent dogmatical problems and theories in Medical Science. IFE and Property Preservers—SelfCocking and Repeating PISTOLS.—This Pistol can
be discharged six times with almost the rapidity of thought.
The pistol cocks, the barrel revolves and discharges merely
by pulling the trigger; the chamber and barrel are in one plece, and therefore cannot blow apart like some repeating pistols. The construction of the pistol is perfectly simple they can be drawn from the pocket and used with one hand without the loss of a moment's time in cocking; six shots can

be fixed as fast as a man can crook his finger. They are no larger than an ordinary pocket pistol.

For Travelers, House-keepers, Captains, Planters, and others, they are an indispensable article, as persons, both male and female, can with this pistol protect their lives and property if attacked by many persons, as one of them is equal to near a dozen of the common kind.

Gentlemen are invited to call at the store of the advertiser and examine the same, as their simplicity, perfect safety and non-liability to get out of order will certainly recommend them over all others. For sale, wholesale and retail, by
